

A row of blue and white bicycles parked on a city street. The bicycles are part of a bike-sharing program, with the word 'DIVY' visible on the frame of the first one. The background shows a city skyline with tall buildings under a blue sky with some clouds. A semi-transparent blue triangle is overlaid on the right side of the image, containing the title and author information.

CYCLIST CASE STUDY

GOOGLE DATA ANALYTICS
CAPSTONE PROJECT

BY AYUSH DIMRI

BUSINESS OBJECTIVE

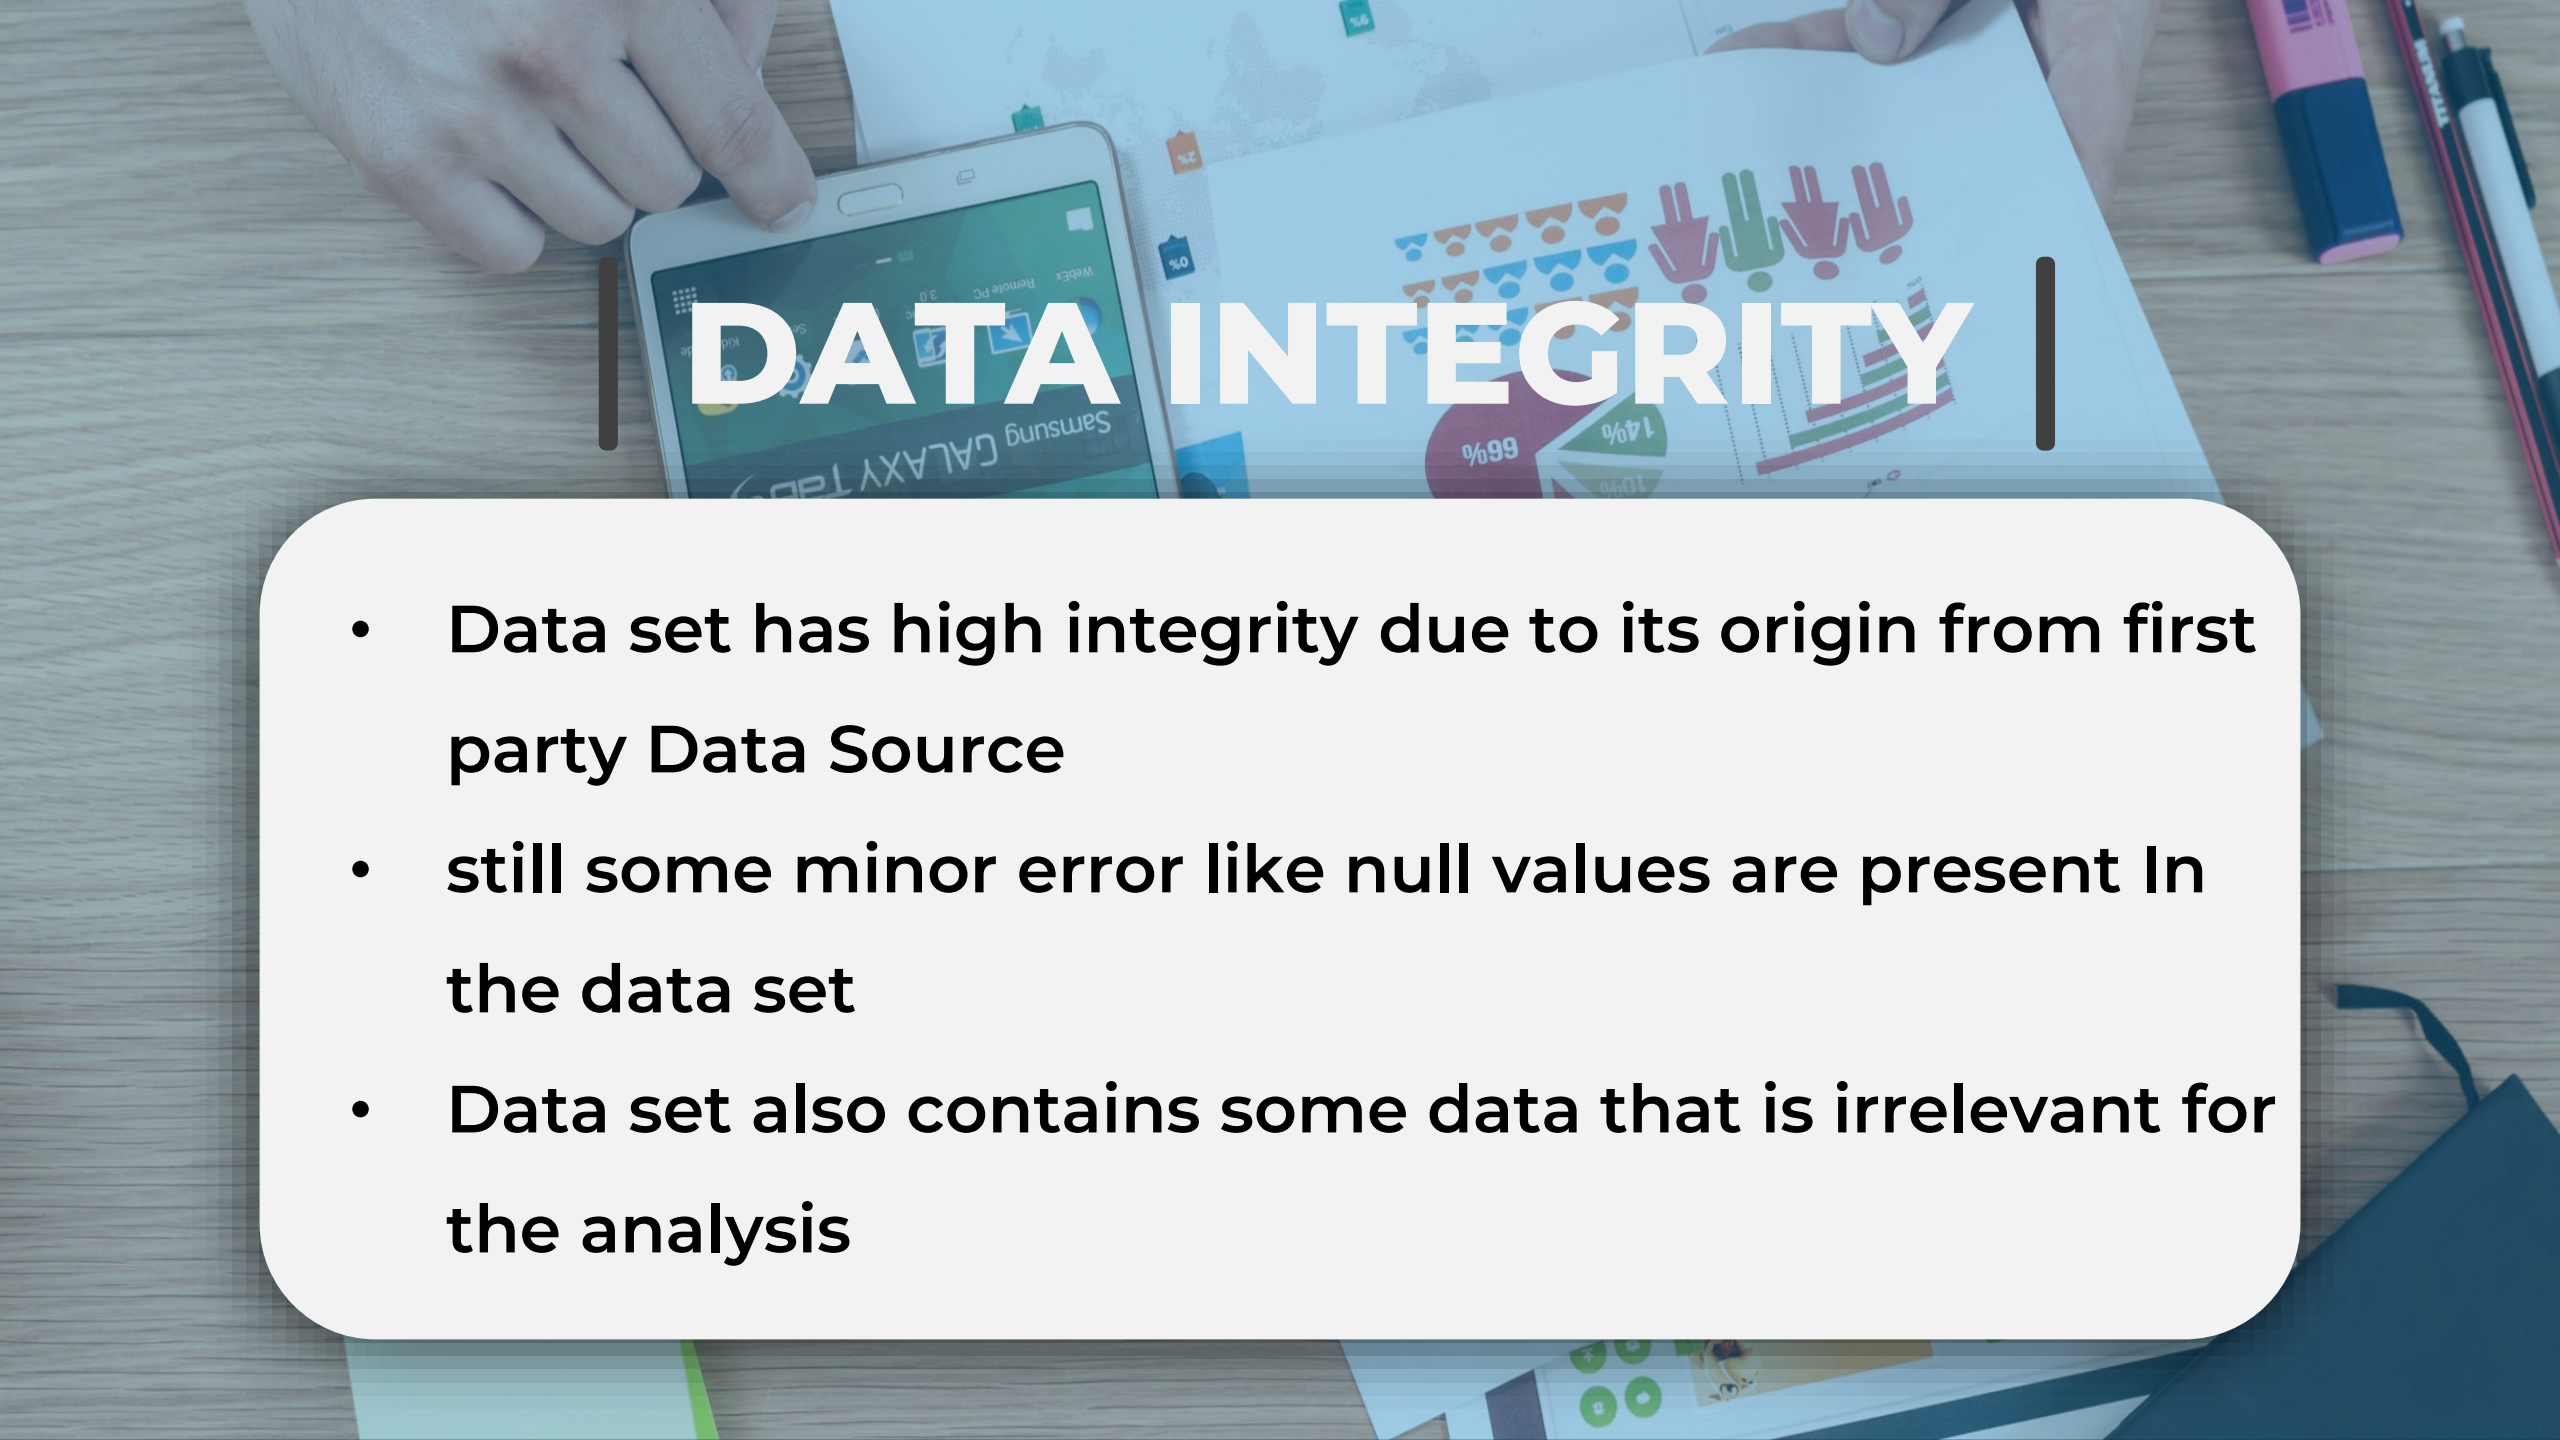

- **Identifying How do annual members and casual riders use Cyclist bikes differently**
- **How to pursue casual riders to become annual members**

DATA SET USED

The Divvy dataset , provided by Motivate International Inc has been used to carry out the analysis

Data set contains the detail of all riders in 2021

DATA INTEGRITY

- Data set has high integrity due to its origin from first party Data Source
- still some minor error like null values are present In the data set
- Data set also contains some data that is irrelevant for the analysis

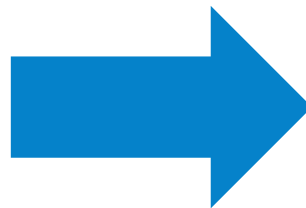

DOCUMENTATION OF DATA CLEANING

Deleted some useless columns

Transformed the data so that it meets requirement of analysis

MEMBERS VS CASUAL RIDERS

- There are more Members than Casual Riders
- Members outnumber casual riders by 540000
- Members exceed Casual Rider by 10%

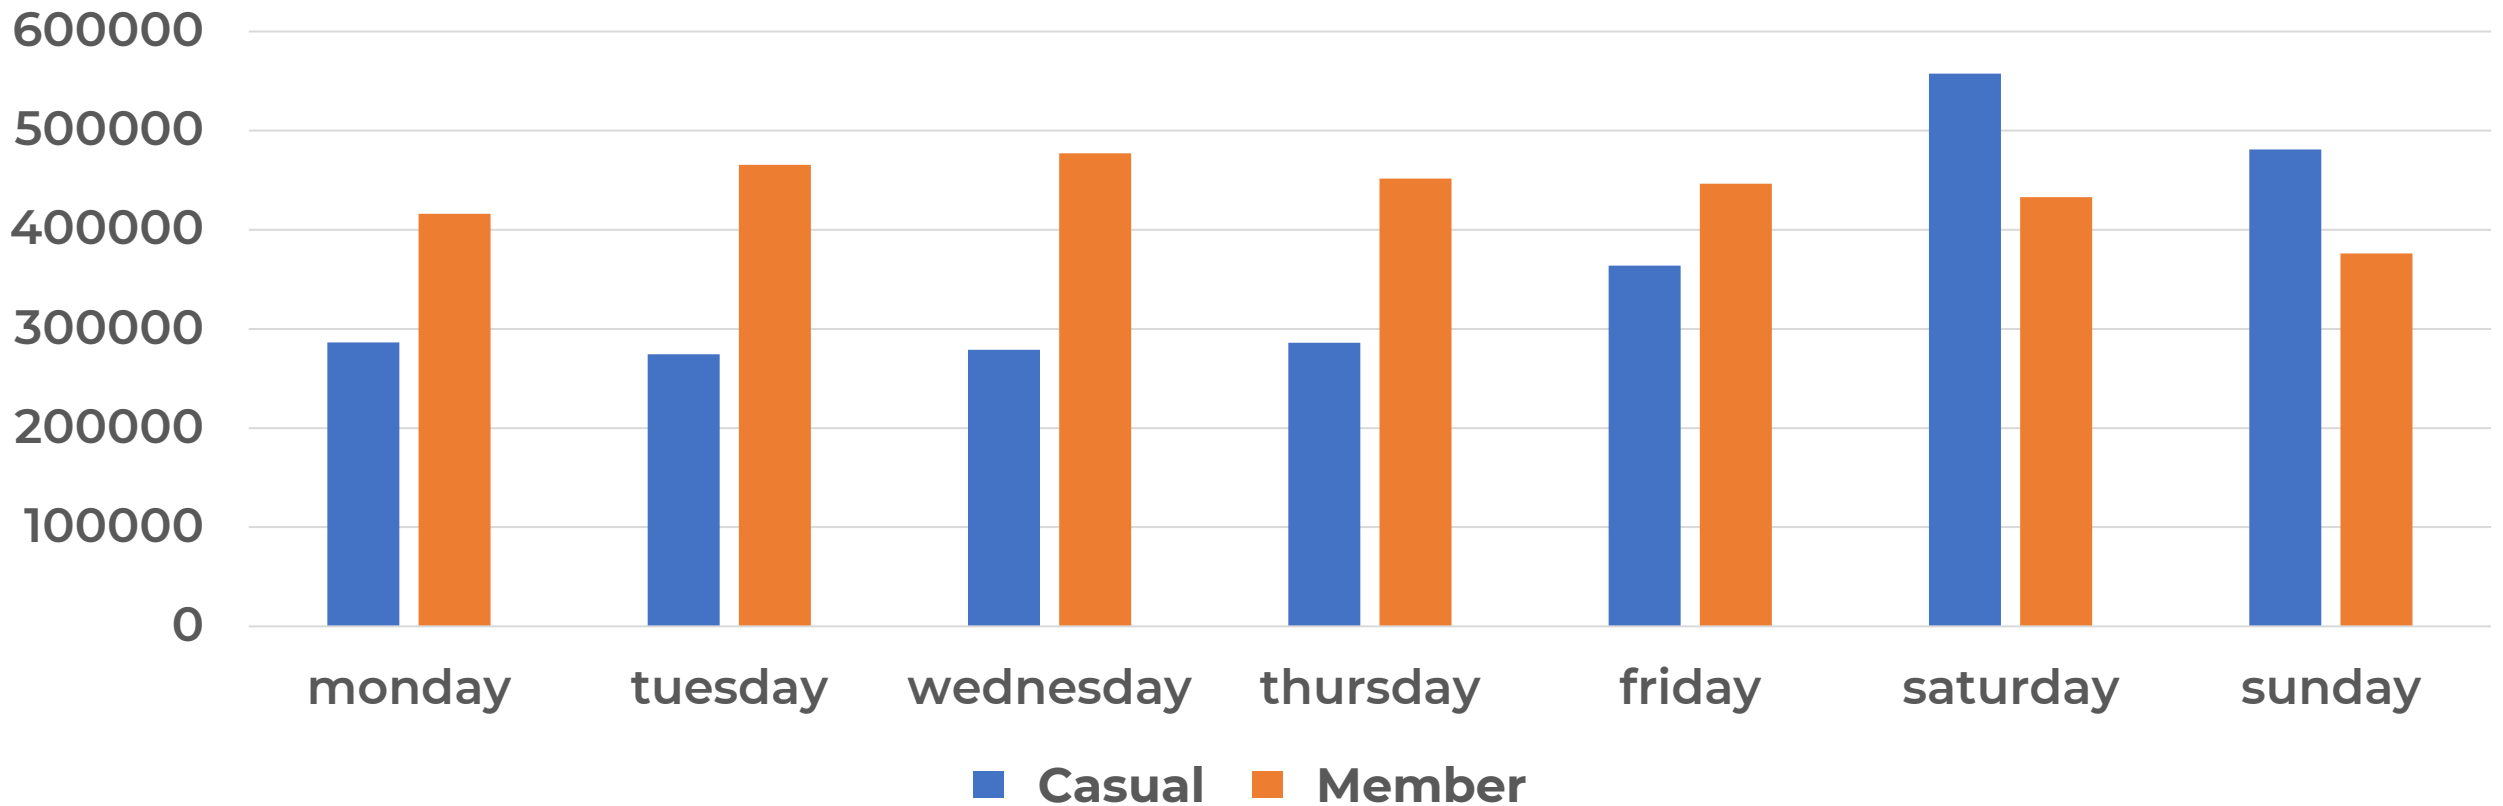

BIKE USAGE BREAKDOWN

- Classic Bikes are more Preferred than Electric and Docked Bike
- Classic Bikes cover more than 50% of total Bike usage
- Docked Bike are least preferred with only 6% usage rate
- Electric Bike cover 36% of total bike usage

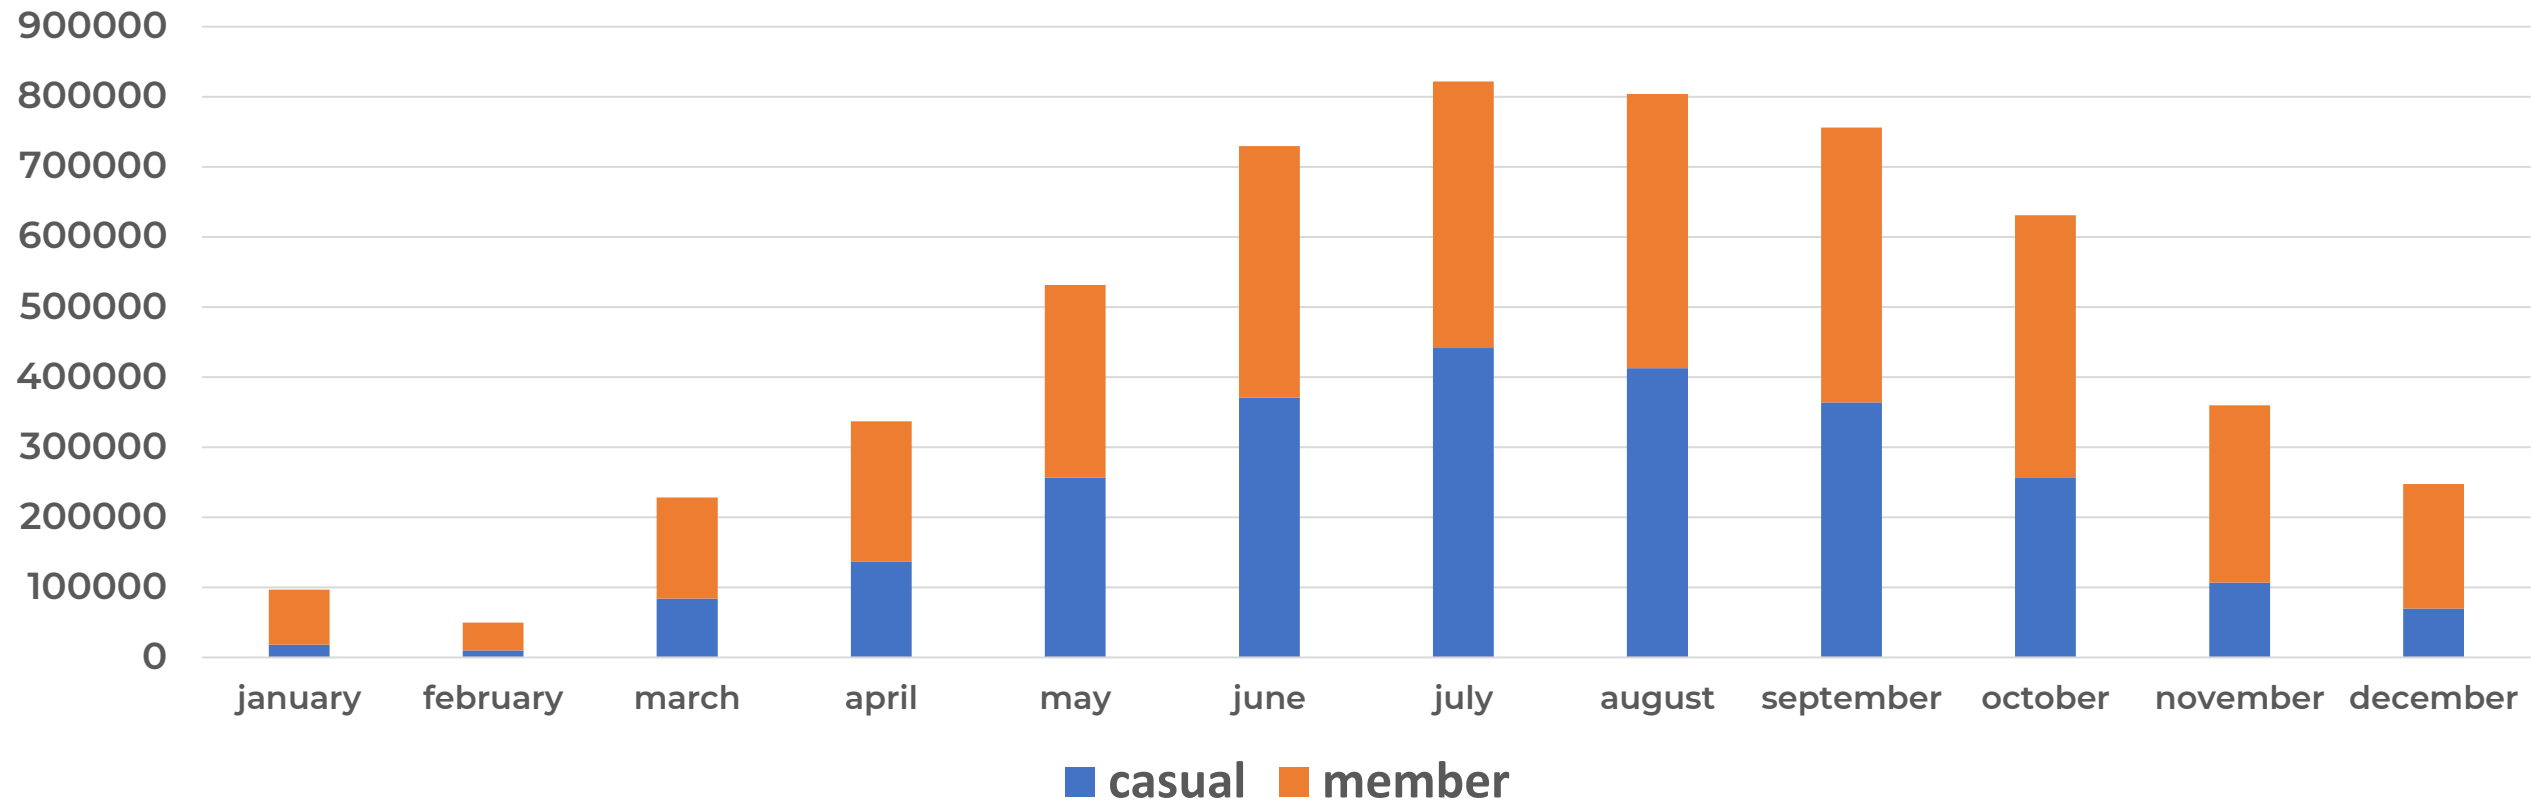

RIDERS PER DAY

- Members use Bikes more in Weekdays
- Casual Riders tend to use Bikes more in Weekends

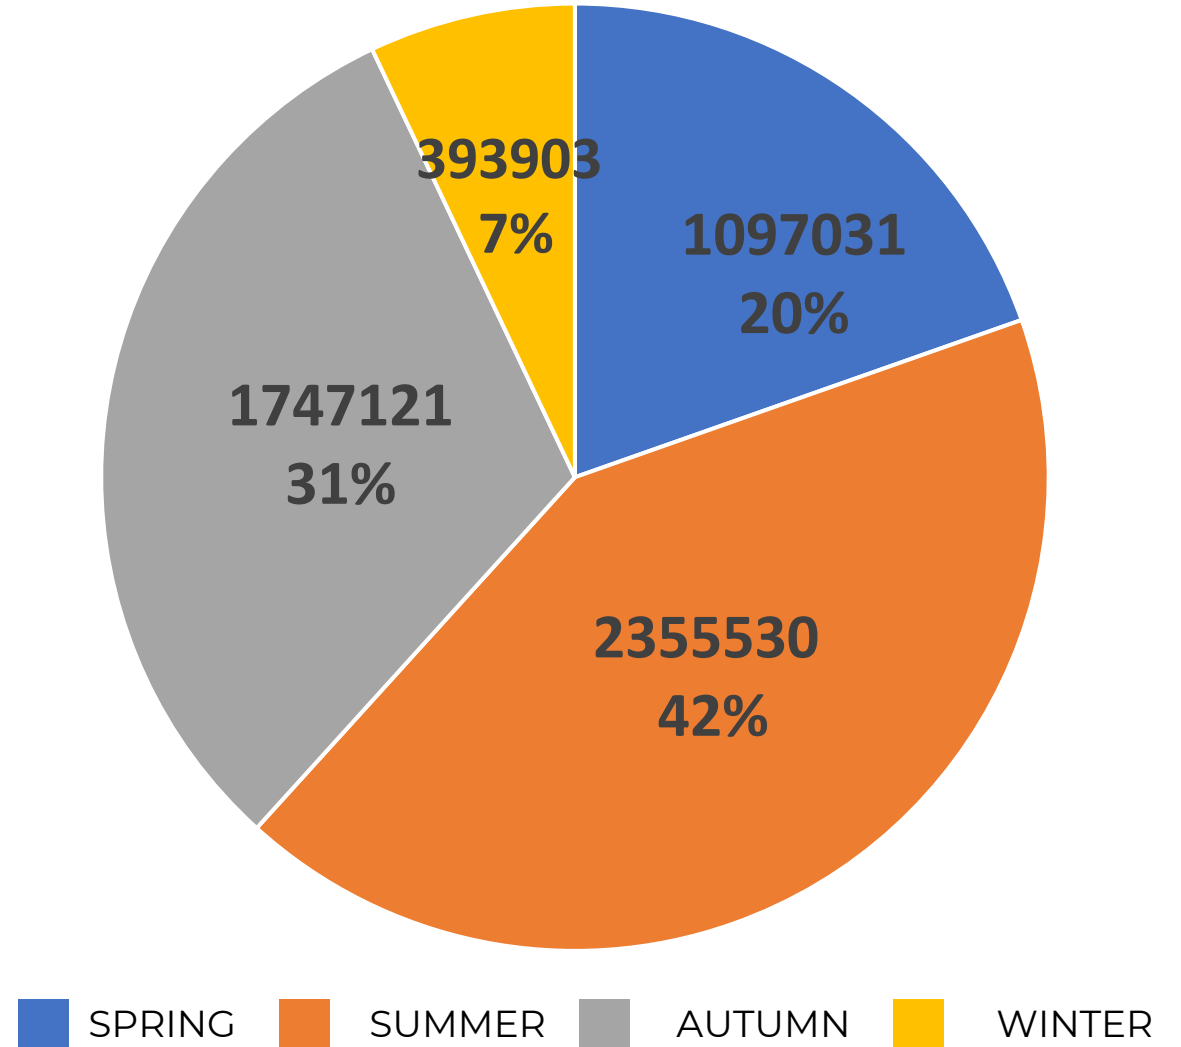

RIDERS PER MONTH

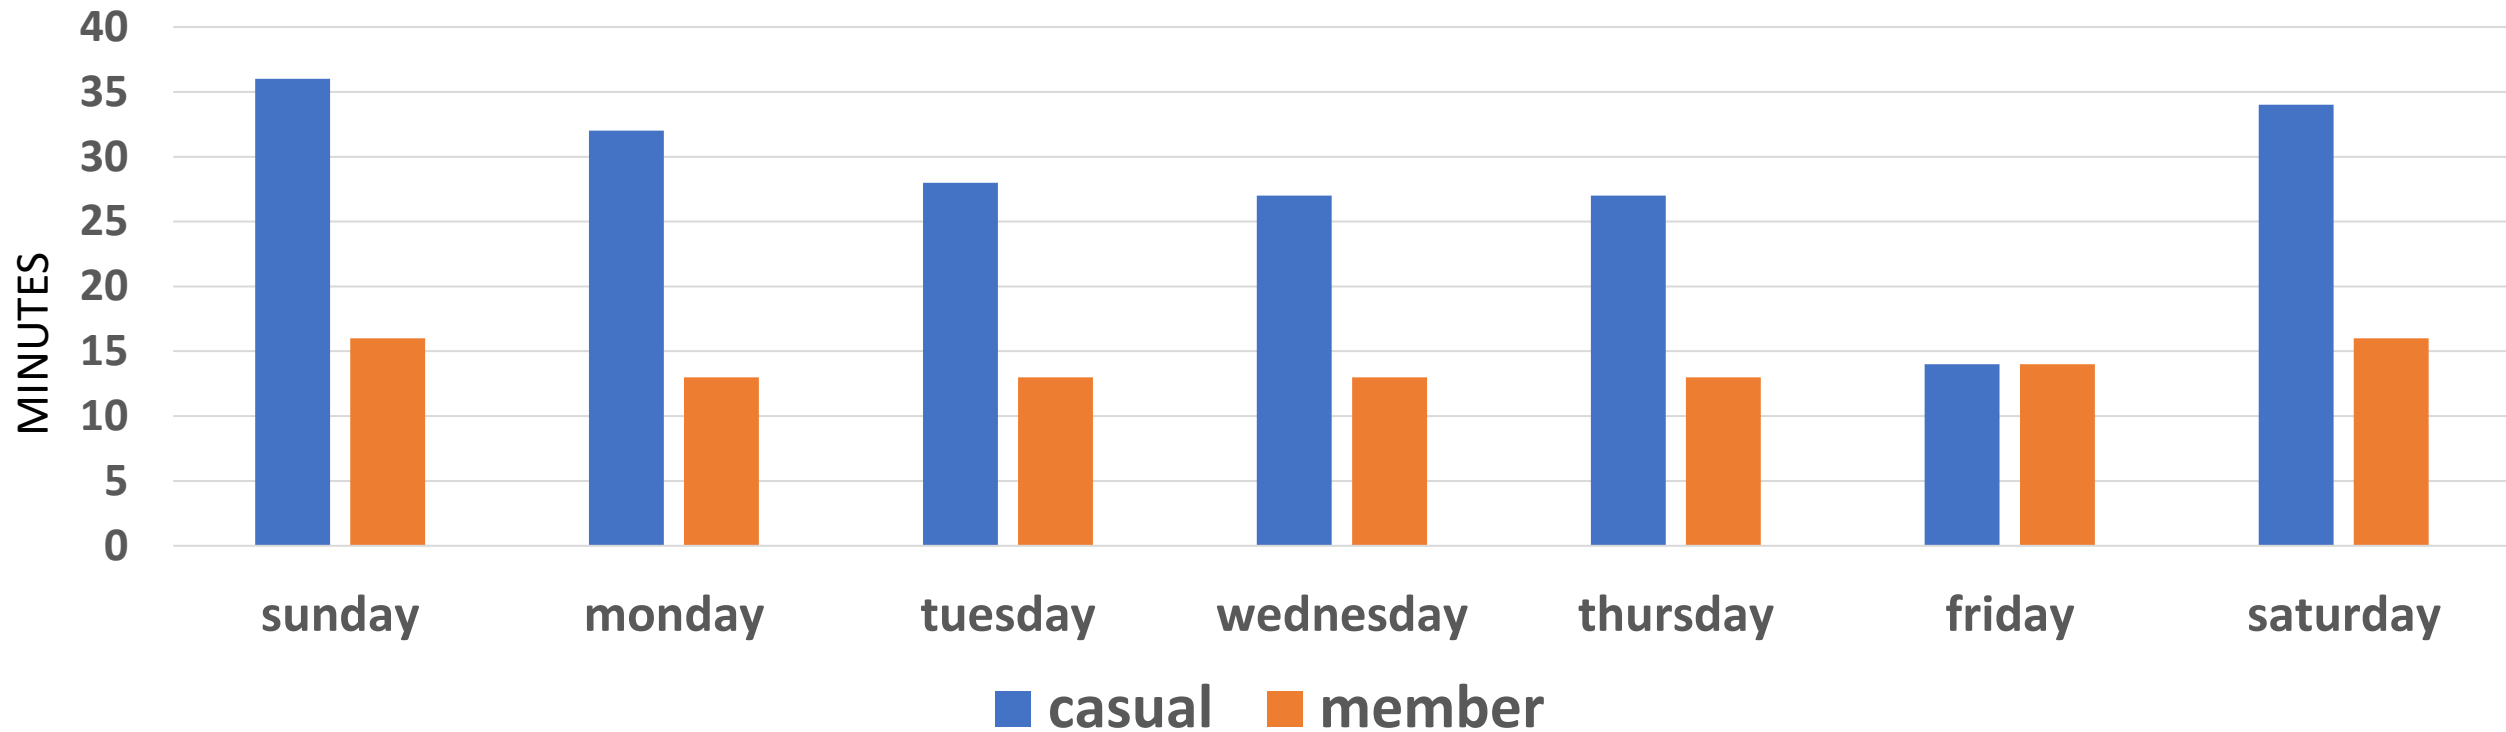

- Most riders in July and Least riders in month of February
- Total riders tend to increase in summer season

RIDERS PER SEASON

- Summer season is preferred by majority of the riders
- Total number of riders shows a big fall down in winter season.
- Preference of riders to ride drops to almost half in spring, one sixth of the fraction remain on winter and $\frac{3}{4}$ th in autumn compared to summer.

AVERAGE RIDE LENGTH

- Casual riders have approximately 2 times more average ride length than members
- Average ride length of casual riders → 27 mins
- Average ride length of members → 14 mins
- Members are more consistent compared to casual riders

CONCLUSION

1

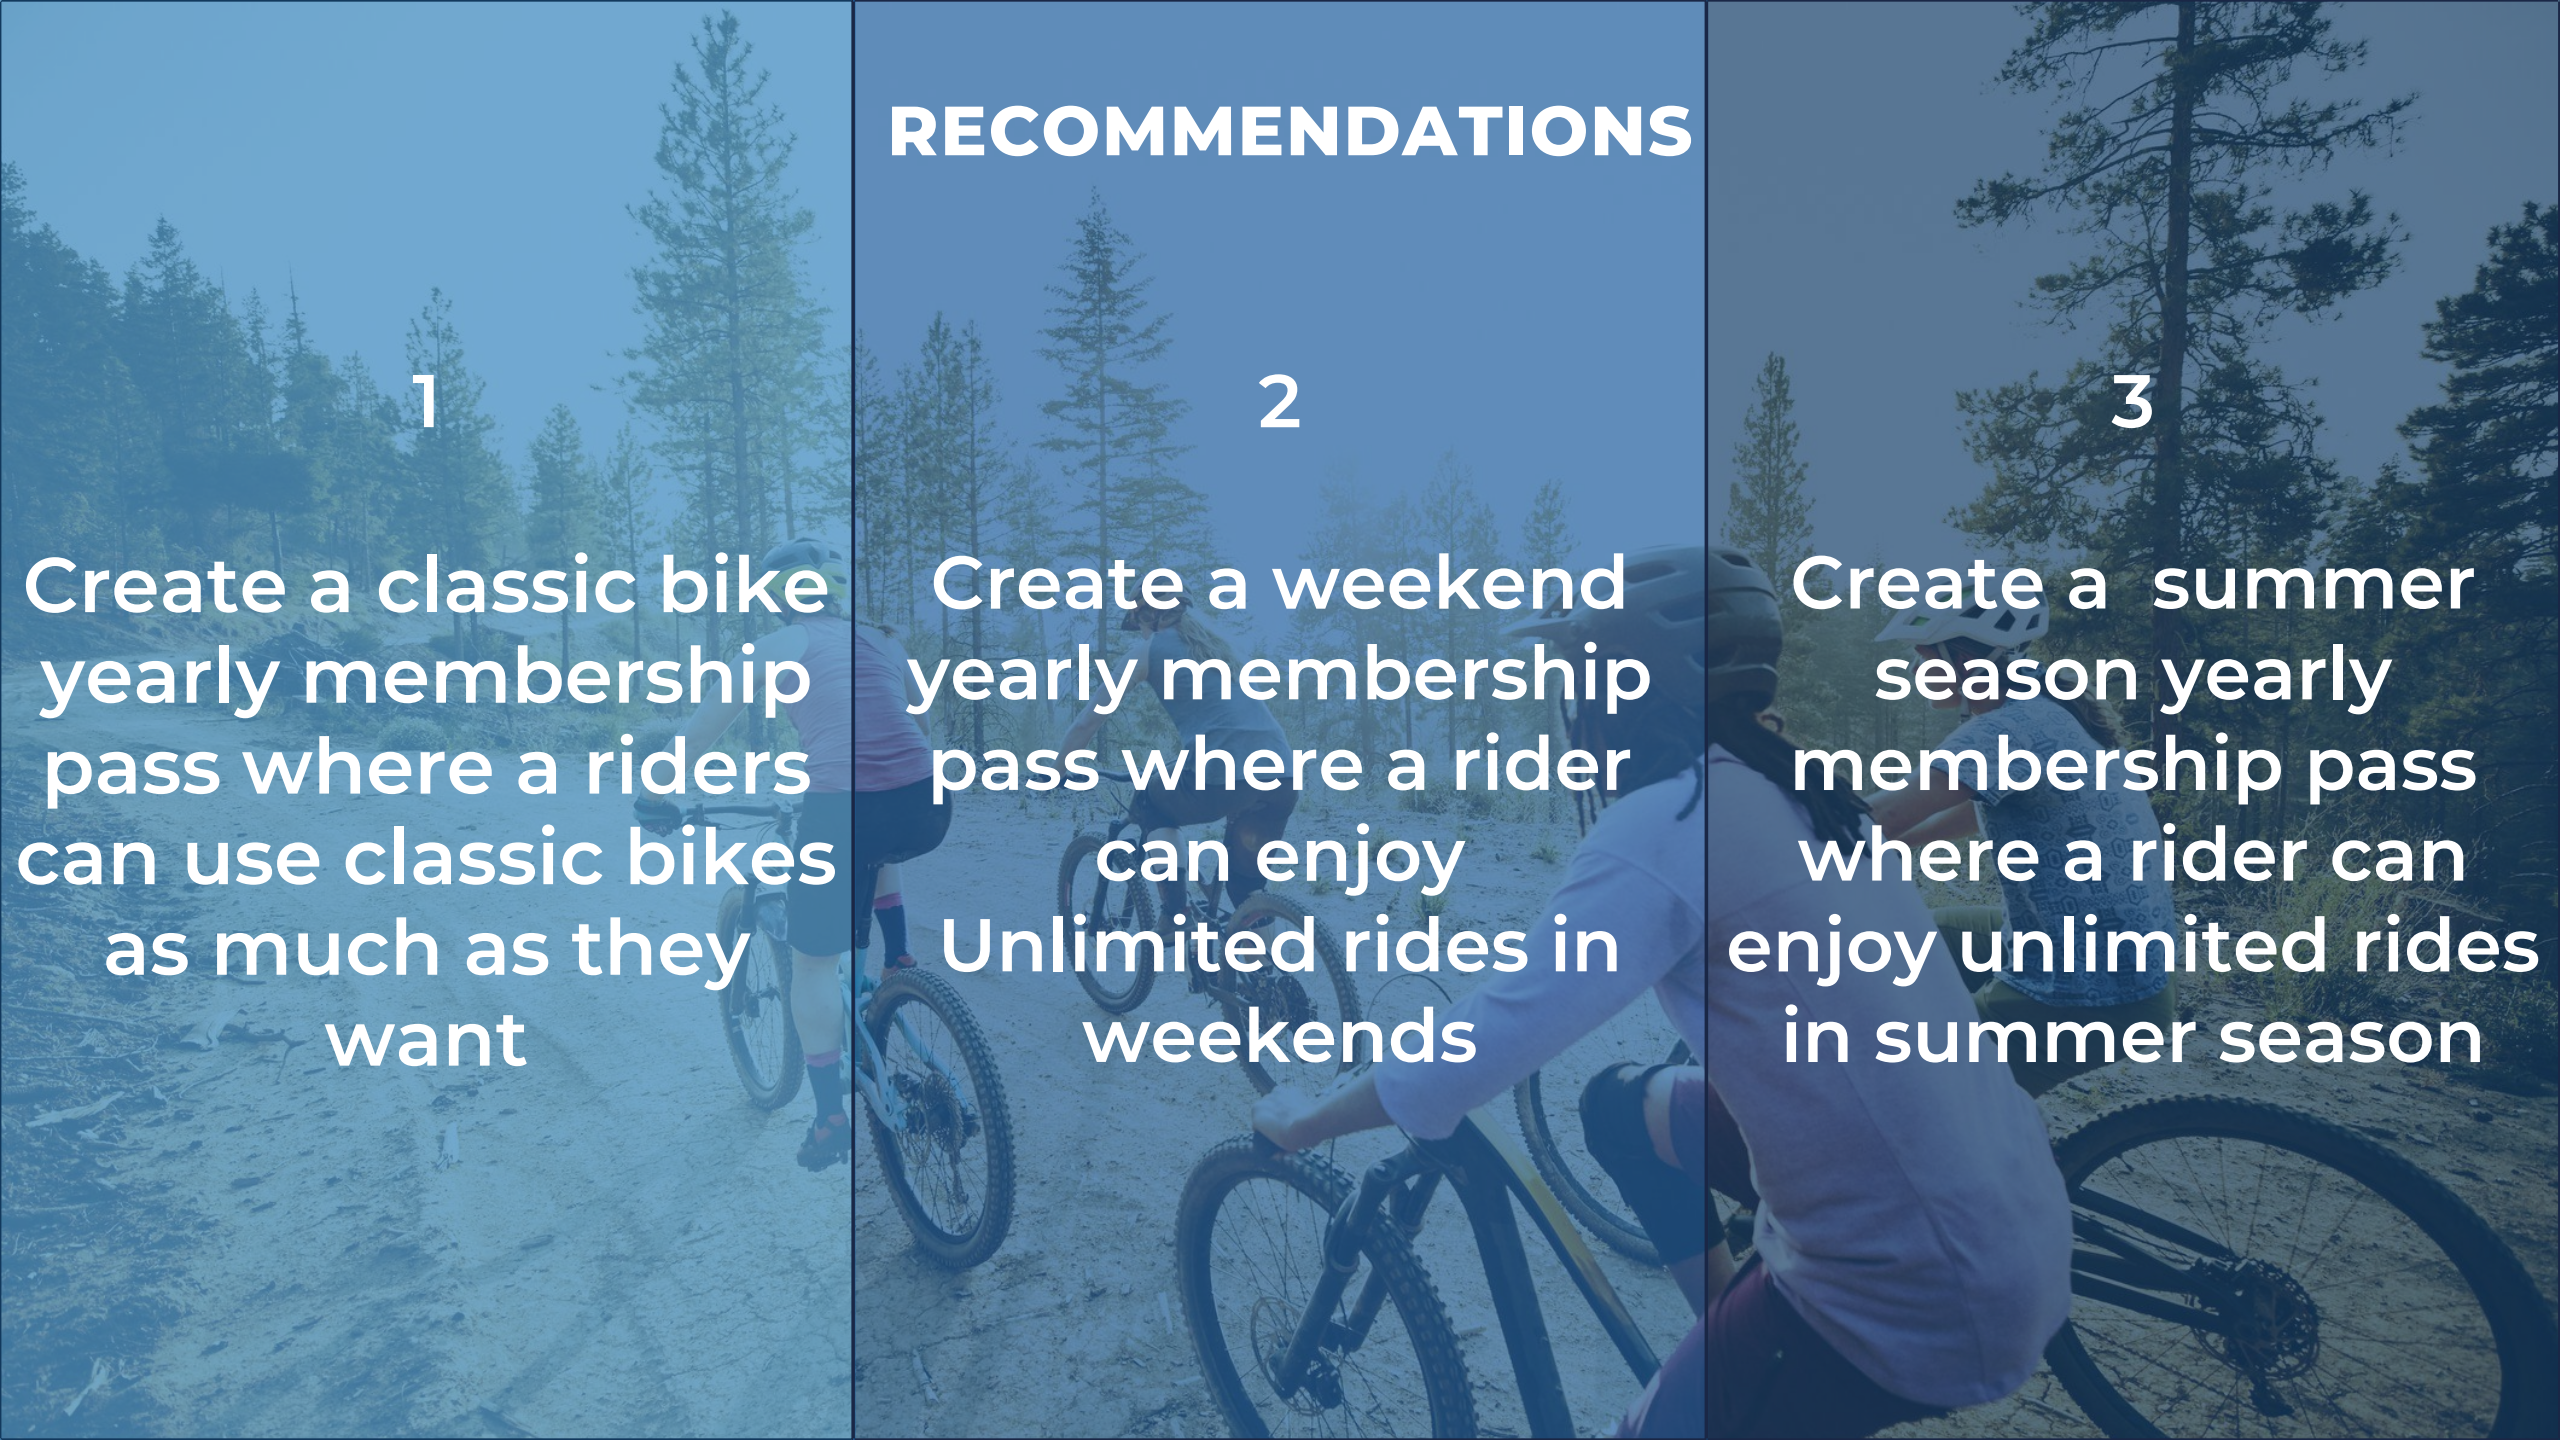

Classic bikes are more preferred than electric and docked bikes

2

Weekends are more preferred by casual riders and weekdays are more preferred by members

3

Riders prefer to ride more in summer season and we see a big downfall in winter season

The background of the entire image is a photograph of a dirt trail winding through a forest of tall, thin evergreen trees. Several cyclists are riding along the trail, moving away from the viewer. The image is divided into three vertical panels, each with a semi-transparent blue overlay. The first panel on the left shows a cyclist in a pink shirt. The middle panel shows a cyclist in a blue shirt. The third panel on the right shows a cyclist in a light purple shirt.

1

Create a classic bike
yearly membership
pass where a riders
can use classic bikes
as much as they
want

RECOMMENDATIONS

2

Create a weekend
yearly membership
pass where a rider
can enjoy
Unlimited rides in
weekends

3

Create a summer
season yearly
membership pass
where a rider can
enjoy unlimited rides
in summer season

| THANK YOU |
